Resilience: The ability to adapt, recover, and heal from adverse circumstances, to survive and thrive despite difficult or stressful conditions.

This contest hosted by the Mid Klamath Watershed Council (MKWC) calls you to consider the beauty and role of resilience in both the natural world and the human spirit, and use either visual or videographic arts to depict that strength and inspire our community in this time.

Contest open to youth ages 6-17 living in the Mid Klamath region, between Horse Creek and Weitchpec. Submissions can be either 2 dimensional drawings/paintings, or a video expressing the theme in musical/spoken-word form. All submissions due by Friday November, 6th to MKWC. Entry forms are required for EACH submission. Participants can submit a total of two pieces in one or both artistic categories. Please see contest rules and entry forms at mkwc.org/programs/youth-programs/2020-youth-art-contest/
