## **Mid Klamath Watershed Council Youth Photo Release Form**

The Mid Klamath Watershed Council works on programs that focus on youth involvement and positive development. These programs combine school curriculum with hands-on projects designed to benefit the resources upon which our communities depend. The goal of the MKWC youth programs is to develop educational projects and activities that focus on habitat restoration, river and creek monitoring, seasonal food production, and community leadership skills that involve students (K-12) in the Klamath River watershed. Through the course of the events that take place, there are opportunities to capture the essence of these programs through photos. We wish to share our experiences with others so that we may grow the interest in the programs for the years to come.

### **Release Section**

*I hereby authorize the Mid Klamath Watershed Council to use all photographs of me and/or the child I am responsible for in any press release, publication and presentation, including but not limited to annual reports, newsletters, brochures, public service announcements or other forms of electronic or print literature, related to the work of the organization.*
