

Stewardship Intern Contract of Understanding

I understand that the Stewardship Intern position is a job where I will work in the outdoors doing fisheries restoration, invasive weed removal, and participate in overnight backpacking trips. As an intern I am aware that during overnight camping trips I will be engaged in strenuous hikes and carrying my own supplies including food, water, and camping equipment.

I have reviewed my schedule and understand that I am required to attend all scheduled workdays. I have arranged transportation so that I will arrive at 8:30 am at the office of the Mid Klamath Watershed Council in Orleans on all scheduled workdays, unless the location will be changed by the project coordinator. Additionally, I understand that I am allowed only 16 hours of unexcused absence (either through tardiness or absence), and that if I reach this 16 hours of unexcused absence I will be terminated from employment. I will be receiving minimum wage for my work and look forward to actively participating in all scheduled work activities through the Mid Klamath Watershed Council

Intern's Name in Print and Signature
